LIQUI-PLEX[®]

Ca

DIRECTIONS FOR USE

Apply LIQUI-PLEX Ca as a foliar application and dilute in a minimum of 10 gal of water per acre. Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by plants. This product should be used on the basis of a soil and/or tissue analysis and the user should seek the advice of an agricultural representative or a professional agricultural consultant. When tank mixed with other chemicals, compatibility testing should be conducted prior to application.

SHAKE WELL BEFORE USE

Deficiency	Application Rate
Mild	16 oz/acre
Moderate	32 oz/acre
Severe	64 oz/acre

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. In case of contact with eyes, flush immediately with copious amounts of water for 15 minutes. If irritation persists, consult a physician.

STORAGE: Keep container tightly sealed when not in use. Store in a cool, dry place between 34° and 100° F. Do not store in direct sunlight. Do not store diluted product. Apply only to the intended application site. Do not apply directly to or near water, storm drains, gutters, sewers, drainage ditches or any impervious surface. Do not apply if heavy rain is expected.
